

DAISY & The Gumboot Kids

DIY Nature Weaving

Step 1:

On a nature walk collect some sticks, leaves, ferns and flowers. Take only what's abundant and only take a little.

Step 2:

Take your sticks and some wool. Tie your sticks together in a square or triangle to make the frame of your loom. Then thread your wool across the frame from side to side. Ask a grown up if you need help.

Step 3:

Add your nature treasures into you loom. Weave them up and over, then down and under your wool. Be creative! Have patience and you will become a better weaver with practice.

**Remember there is no right or wrong way
to make a nature craft, so have fun!**

Nice work, Gumboot Kids! Daisy would love to see what
you've made. Share a picture with @GumbootKids
